## Iowa City Cable Commission

Kirkwood Community College  
“The Kirkwood Channel” October, 2009 Report

### **Local Programming:**

- Our first 2009 KSP newscast started airing in early October.
- The Kirkwood Channel continues to produce “The Involvement Report” on a monthly basis in partnership with the Heritage Agency on Aging. This includes a 5-10 minute segment of the Linn County Master Gardeners.

### **Future Locally Produced Educational Programming:**

- The Kirkwood Channel will then air a “**Live**” matches on October 21 (DMACC). We may air live tournament play in early November if the Matches are played on the Kirkwood Campus.
- We are currently working with “The Friends of the Cedar Rapids Library” to air some of their in house productions. We hope to have these video put into our server, so we can start airing them on October 17. These same programs currently are aired on Channel 18 in Cedar Rapids. If you would like to look at these videos, they are located on the internet at the following address – [http://www.neighborhoodnetworknews.com/video/wmf/fof/fof\\_all.html](http://www.neighborhoodnetworknews.com/video/wmf/fof/fof_all.html)
- We are in early talks to bring Kirkwood Basketball games to The Kirkwood Channel. We hope to bring 3-6 doubleheaders this season. A doubleheader is when we show the Women’s team first and then the Men’s team. The first games will be taped delayed and then 2-5 games will be shown live.
