Mr. Bob Hardy  
City of Iowa City  
410 E. Washington St.  
Iowa City, Iowa 52240-1826

Subject: Channel Changes

Dear Mr. Hardy:

Please note the following channel change that will occur on or about December 16, 2009:

Programming Service	Current Carriage Level	Current Channel	New Carriage Level	New Channel
CSPAN	Basic	<b>14</b>	Basic	19
HSN	Basic	9	Digital Broadcast Basic	16

As part of the nationwide digital transition, Mediacom will be moving certain channels from the current basic tier and Family Basic tier to Digital Broadcast Basic. The reposition of these channels allows Mediacom to add more channels and higher Internet speeds. Digital Broadcast Basic channels are included at no extra charge with Broadcast Basic and Family Cable service. However, a TV with a digital QAM tuner or a Mediacom Digital Converter is needed on each TV to receive these channels. Digital Tuners are now available from Mediacom to receive Digital Broadcast Basic Channels. Mediacom will provide one Digital Tuner free for one year. Additional Digital Tuners are available for only \$1.99 per month.

If there are any questions please call me at 319-395-9699 ext 323.

Sincerely,

Lee Grassley  
Senior Manager, Government Relations
